

Royle Safaris ran its Borneo's Rare Mammals Tour (with optional post tour extension to Tawau Hills National Park) once again in the late summer of 2023. Borneo is a staple of our mammalwatching group tour calendar and over the years we have recorded over 110 species of mammals, 200+ species of birds, 54 species of reptiles, 29 species of amphibians and even 7 species of fish (across the various different trips we have run); and we hoped for some more fantastic success on our latest trip in August / September 2023.

Borneo is without a question one of the most biodiverse and wildlife rich locations in the world. From enigmatic orangutans to pygmy elephants and from huge salt-water crocodiles to well-endowed hornbills the tropical island has some of the world's best known species. However it is also home to animals that most people have never heard of, from the very elusive Borneo ground cuckoo to the curious looking proboscis monkey and from the secretive sun bear to the misleading flying lemur; Borneo has many species which are just down right strange.

This trip will focus on a small number of probably the most elusive, endearing and incredible mammals here. Often shy and elusive there is a wealth of life to be found after dark in the forests of Borneo. From the top predator on the forest the Sunda clouded leopard and its smaller cousins, Sunda Leopard Cat, Flat-headed Cat, Marbled Cat and the near mythical Bay Cat to the more commonly seen civet species, colugos and slow lorises; this trip will aim to showcase the best of Borneo's mammals by both day and night.

There is a good probability we will not see all of our targets, that is the nature of things when looking for the rarest and most elusive. But it is very hard to spend considerable time in the forests of Borneo and not see an impressive number of species (mammals, birds, reptiles and amphibians). To help us in our quest for the rarest species we have the expert help from local spotters (this tour was guided by Mike Gordon – for the main trip and then Shavez Cheema for the Tawau extension), incredibly experienced guides and even advice and information from the leading biologists in Borneo. All of this, some specialist equipment and a huge amount of luck would be needed in order to be successful. But if you do not try you will never be successful

The main trip is based around three different destinations, firstly wonderful Tabin Wildlife Sanctuary; which has a very nice lodge and also a pretty good track record for Malayan sun bears as well as other species of mammals as their proximity (neighbouring) to a palm oil plantation means that there is a good amount of rodents around and this brings in civets and leopard cats and we hoped for good sightings of these, even if the sun bears remained hard to see on this trip. Tabin is also the location of the last Sumatran rhino in Malaysia. One old was kept in a pen inside the forest, a sad reminder of how fragile the forests here are and even sadder when this animal died a couple of years ago, leaving Malaysia with no rhinos at all. We then would have a couple of nights looking for the semi aquatic flat-headed cat along the shores of the Kinabatangan River (as well as enjoying the wonderful wildlife watching along the largest river in Borneo), before finishing in the wonderful and now famous sustainably logged reserve (low-impact logging) of Deramakot, which would produce Sunda leopard cat and hopefully either or both Sunda clouded leopard and marbled cat.

All of these forests have one thing in common. They may not be around (or their inhabitants as numerous) in the near future. These forests are some of the most under threat in the world, increasing human population, coupled with poaching and illegal logging are culminating in the forests and the animals they harbour becoming increasingly rare and endangered. But the single biggest threat here is the ceaseless conversion of forest to monotonous palm oil plantations. By driving around a good part of Sabah (one of the more wildlife and conservation focused parts of South East Asia) we will see first-hand the difference between pristine forest and monoculture plantations. We aim to showcase the wildlife and forests of Sabah as well as increasing awareness of the problems it is facing.

We will also have the guidance of passionate local guides and there are some fantastic conservation groups working tirelessly to increase sustainable ecotourism here and save as many acres and species as possible.

As many of our targeted species are nocturnal we will be spending a large proportion of our time in the dark, searching the forests and river banks with a spotlight; looking for the tell-tale eye shine of an animals eyes reflecting back the light from your torch. It is always very hard to predict what animals you may see when you embark on a safari, but one thing we know for sure with this trip to Sabah, Borneo: that is that we will see plenty and what we do see will either be endemic, endangered or elusive.

After the main trip three of our clients (Dario Nessi, Olga Allen and Rahul Kumar) travelled on to explore the Tawau Hills National Park (as part of our optional post-tour extension) with the expert guidance of our guide Shavez. This was a week-long trip to this remote and seldom visited park. The problem we ran into was that not any of the large fig trees here were in fruit when we were there (a few days after this group left, one came into fruit and many species of mammal were seen), but alas on this trip it was difficult. However there were sightings of **maroon langur** (including an unusual white morph), and some nice herping; we usually get more species but the figs scuppered this trip, in fact Shavez told us that in the 50+ trips he has run to the park, this was the least mammalian activity he had ever known.

Below is a run brief synopsis of the trip and then our species count in the following table and some pictures from the trip. The trip started in Lahad Datu with everyone's arrival and then transfer to the first wildlife watching location of Tabin Wildlife Sanctuary. Here the trip started well with great views of **north Borneo gibbons, oriental short-clawed otters**, a large male **Borneo orangutan**, the non mammal highlight for Tabin was undoubtedly a great Argus pheasant which flew across the road and then walked around (in view) in the oil palm and another nice bird species seen here was a Blyth's hawk-eagle. Other species seen in Tabin included the rare **Sabah grizzled langur, Sunda leopard cat, banded civet, Philippine slow loris, Asiatic elephant, large treeshrew** along with various rodents and civet species.

From here the group went to the largest river in Malaysian Borneo, the Kinabatangan River. Water levels were unseasonably high (which is happening a lot currently) and so trying to spot a flat-headed cat were very difficult and we failed in this, but we did see the other major targets along the river including **proboscis monkey, Sundiac silvered langur** and **southern pig-tailed macaque** and others.

The third and final location was Deramakot, with a week here and many long night drives we were rewarded with sightings of various bat species, rodents, many **slow loris, Borneo orangutans, binturong, north Borneo gibbons, moonrat**, and many more. The non-mammal highlight here was a 5m reticulated python, what an incredible species to see in the open and of a huge size too.

We also made a brief stop at Sepilok at the end of the trip as there were last minute changes to the accommodation in Deramakot (the forestry department cancelled all bookings due to having to find room for a conference (or something) that they had planned. Whilst here we had a great time and saw **western tarsier, Philippine slow loris, Sunda colugo** and Wagler's pit viper.

As well as mammals, below we have listed the birds, reptiles and amphibians seen on the trip.

We are Royle Safaris remains committed to trying to establish small-scale sustainable eco tourism centred around some of the world's rarest and little seen mammal species. So anyone who is interested in looking for such an animal (such as the elusive nocturnal wildlife of Borneo or any other animals) and cannot find a means of getting a trip together or is struggling to find like minded people to travel with; contact us (info@royle-safaris.co.uk) we have a network of local guides, researchers and conservationists around the world as well as a large following of clients and so are uniquely situated to put together pioneering mammalwatching trips and get small groups together for such trips. Or we can arrange private tours if you do not want to be in a small group. Any and all options are possible and we look forward to hearing from you and working on the next rare mammalwatching expedition.

We have filled our 2024 Borneo Rare Mammals Tour and optional post tour extension to Tawau Hills National Park, but have set some dates (and have bookings already) for our 2025 group tour if anyone is interested please get in touch.

Species List

Borneo's Rare Mammals Tour & Tawau Hills Extension – Aug/Sep 2023

Mammals

	Common Name	Binominal Name
1	Black Flying Squirrel	<i>Aeromys tephromelas</i>
2	Thomas's Flying Squirrel	<i>Aeromys thomasi</i>
3	Oriental Small Clawed Otter	<i>Aonyx cinereus</i>
4	Binturong	<i>Arctictis binturong</i>
5	Bornean Striped Palm Civet	<i>Arctogalidia stigmatica</i>
6	Ear-spot squirrel	<i>Callosciurus adamsi</i>
7	Plantain Squirrel	<i>Callosciurus notatus</i>
8	Prevost's Squirrel	<i>Callosciurus prevostii</i>
9	Western Tarsier	<i>Cephalopachus bancanus</i>
10	Sambar Deer	<i>Cervus unicolor</i>
11	Grey-bellied pencil-tailed tree-mouse	<i>Chiropodomys muroides</i>
12	Lesser Short Nosed Fruit Bat	<i>Cynopterus brachyotis</i>
13	Moonrat	<i>Echinosorex gymnura</i>
14	Asiatic Elephant	<i>Elephas maximus</i>
15	Lesser sheath-tailed bat	<i>Emballonura monticola</i>
16	Plain Pygmy Squirrel	<i>Exilisciurus exilis</i>
17	Whitehead's Pygmy Squirrel	<i>Exilisciurus whiteheadi</i>
18	Sunda colugo	<i>Galeopterus variegatus</i>
19	Greater Ranee Mouse	<i>Haeromys margarettae</i>
20	Lesser Ranee Mouse	<i>Haeromys pusillus</i>
21	Banded Palm Civet	<i>Hemigalus derbyanus</i>
22	Diadem Roundleaf Bat	<i>Hipposideros diadema</i>
23	North Bornean Gibbon	<i>Hylobates funereus</i>
24	Long-tailed giant rat	<i>Leopoldamys sabanus</i>
25	Long Tailed Macaque	<i>Macaca fascicularis</i>
26	Southern Pig Tailed Macaque	<i>Macaca nemestrina</i>
27	Indomalay spiny rat	<i>Maxom surifer</i>
28	Borneo Yellow Muntjac	<i>Muntiacus atherodes</i>
29	Sunda Skunk	<i>Mydaus javanensis</i>
30	Proboscis Monkey	<i>Nasalis larvatus</i>

Key: Tabin Wildlife Sanctuary (TAB) Kinabatangan River (KIN) / Deramakot Forest Reserve (DER) / Sepilok (SEP) / Tawau Hills National Park (TAU)

31	Phillipine Slow Loris	<i>Nycticebus menagensis</i>
32	Island Palm Civet	<i>Paradoxurus philippinensis</i>
33	Hose's Pygmy Flying Squirrel	<i>Petaurillus hosei</i>
34	Red Giant Flying Squirrel	<i>Petaurista petaurista</i>
35	Borneo orangutan	<i>Pongo pygmaeus</i>
36	Maroon Langur	<i>Presbytis rubicunda</i>
37	Sabah grizzled langur	<i>Presbytis sabana</i>
38	Sunda Leopard Cat	<i>Prionailurus javanensis</i>
39	Large flying fox	<i>Pteropus vampyrus</i>
40	Cream-coloured Giant Squirrel	<i>Ratufa affinis</i>
41	Acuminate horseshoe bat	<i>Rhinolophus acuminatus</i>
42	Trefiol Horshoe bat	<i>Rhinolophus trifoliatus</i>
43	Silvery Langur	<i>Trachypithecus cristatus</i>
44	Lesser Mouse Deer	<i>Tragulus kanchil</i>
45	Greater Mouse Deer	<i>Tragulus napu</i>
46	Long-tailed porcupine	<i>Trichys fasciculata</i>
47	Slender treeshrew	<i>Tupaia gacilis</i>
48	Large treeshrew	<i>Tupaia tana</i>
49	Malay Civet	<i>Viverra zangalla</i>

Note: Some bats identified 100% at roosts or with good views. Others identified with spectrograms in combination with sightings (no spectrograms without visual confirmation are recorded as a sighting), behaviour and habitat – so not 100% but best educated guesses. For more information please email me.

‡ - Animals where signs were seen but not the animal

Birds

	Common Name	Binominal Name
1	Crested goshawk	<i>Accipiter trivirgatus</i>
2	White Crowned Hornbill	<i>Aceros comatus</i>
3	Wrinkled Hornbill	<i>Aceros corrugatus</i>
4	Wreathed Hornbill	<i>Aceros undulatus</i>
5	Javan mynah	<i>Acridotheres javanicus</i>
6	Common Mynah	<i>Acridotheres tristis</i>
7	Common sandpiper	<i>Actitis hypoleucos</i>
8	Common iora	<i>Aegithina tiphia</i>
9	Mossy-nest swiftlet	<i>Aerodramus salangana</i>
10	Eastern crimson Sunbird	<i>Aethopyga siparaja</i>

11	Temminick's sunbird	<i>Aethopyga temminckii</i>
12	Blue Eared Kingfisher	<i>Alcedo meninting</i>
13	Finsch's bulbul	<i>Alophoixus finschii</i>
14	Yellow-bellied bulbul	<i>Alophoixus phaeocephalus</i>
15	White-breasted waterhen	<i>Amaurornis phoenicurus</i>
16	Oriental Darter	<i>Anhinga melanogaster</i>
17	Bushy Crested Hornbill	<i>Anorrhinus galeritus</i>
18	Oriental Pied Hornbill	<i>Anthracoceros albirostris</i>
19	Asian Black Hornbill	<i>Anthracoceros malayanus</i>
20	Red-throated sunbird	<i>Anthreptes rhodolaemus</i>
21	Plain sunbird	<i>Antthreptes simplex</i>
22	Asian glossy starling	<i>Aplonis panayensis</i>
23	House swift	<i>Apus nipalensis</i>
24	Streaky-breasted spiderhunter	<i>Arachnothera affinis</i>
25	Yellow-eared spiderhunter	<i>Arachnothera chrysogenys</i>
26	Thick-billed spiderhunter	<i>Arachnothera crassirostris</i>
27	Long-billed spiderhunter	<i>Arachnothera robusta</i>
28	Little spiderhunter	<i>Aracthothera longirostra</i>
29	Intermediate egret	<i>Ardea intermedia</i>
30	Purple Heron	<i>Ardea purpurea</i>
31	Great argus	<i>Argusianus argus</i>
32	White-breasted woodswallow	<i>Artamus leucorhynchus</i>
33	Maroon Woodpecker	<i>Blythipicus rubiginosus</i>
34	Barred Eagle Owl	<i>Bubo sumatranus</i>
35	Rhinoceros Hornbill	<i>Buceros rhinoceros</i>
36	Helmeted Hornbill	<i>Buceros vigil</i>
37	Striated heron	<i>Butorides striata</i>
38	Brown Barbet	<i>Calorhamphus fuliginosus</i>
39	Green Broadbill	<i>Calyptomena viridis</i>
40	Large-tailed nightjar	<i>Caprimulgus macrurus</i>
41	Greater Coucal	<i>Centropus sinensis</i>
42	White-winged tern	<i>Chilodonia leucopterus</i>
43	Lesser Green Leafbird	<i>Chloropsis cyanopogon</i>
44	Greater Green Leafbird	<i>Chloropsis sonnerati</i>
45	Violet cuckoo	<i>Chrysococcyx xanthorhynchus</i>
46	Storm Stork	<i>Ciconia stormi</i>
47	Olive-backed sunbird	<i>Cinnyris jugularis</i>
48	Feral Pigeon	<i>Columba livia</i>
49	Oriental Magpie Robin	<i>Copsychus saularis</i>

50	White Crowned Shama	<i>Copsychus stricklandii</i>
51	Lesser Cuckooshrike	<i>Coracina fimbriata</i>
52	Slender Billed Crow	<i>Corvus enca</i>
53	Red and Black Broadbill	<i>Cymbirhynchus macrorhynchos</i>
54	Fulvous-chested jungle flycatcher	<i>Cyornis olivaceus</i>
55	Asian palm swift	<i>Cypsiurus balasiensis</i>
56	Scarlet-backed flowerpecker	<i>Dicaeum cruentatum</i>
57	Orange-bellied flowerpecker	<i>Dicaeum trigonostigma</i>
58	Bronzed Drongo	<i>Dicrurus aeneus</i>
59	Greater racket-tailed drongo	<i>Dicrurus paradiseus</i>
60	Green Imperial Pigeon	<i>Ducula aenea</i>
61	Great Egret	<i>Egretta alba</i>
62	Little Egret	<i>Egretta garzetta</i>
63	White Crowned Forktail	<i>Enicurus leschenaulti</i>
64	White-bellied erpornis	<i>Erpornis zantholeuca</i>
65	Dollarbird	<i>Eurystomus orientalis</i>
66	King quail	<i>Excalfactoria chinensis</i>
67	Zebra dove	<i>Geopelia striata</i>
68	Hill Myna	<i>Gracula religiosa</i>
69	White-bellied sea-eagle	<i>Haliaeetus leucogaster</i>
70	Cinnamon-rumped trogon	<i>Harpactes orrhophaeus</i>
71	Whiskered treeswift	<i>Hemiprocne cornata</i>
72	Pacific Swallow	<i>Hirundo tahitica</i>
73	Purple-naped sunbird	<i>Hypogramma hypogrammicum</i>
74	Black-naped monarch	<i>Hypothymis azurea</i>
75	Lesser fish eagle	<i>Ichthyophaga humilis</i>
76	Indian Black Eagle	<i>Ictinaetus malayensis</i>
77	Charlotte's bulbul	<i>Iole crypta</i>
78	Asian fairy-bluebird	<i>Irena puella</i>
79	Streaked bulbul	<i>Ixos malaccensis</i>
80	Buffy Fish Owl	<i>Ketupa ketupu</i>
81	Purple-throated sunbird	<i>Leptocoma sperata</i>
82	Lesser Adjunctant	<i>Leptoptilos javanicus</i>
83	Chestnut Munia	<i>Lonchura atricapilla</i>
84	Dusky Munia	<i>Lonchura fuscans</i>
85	Scaly-breasted munia	<i>Lonchura punctulata</i>
86	Crested Fireback	<i>Lophura ignita</i>
87	Short-tailed babbler	<i>Malacocincla malaccensis</i>
88	Sooty-capped babbler	<i>Malacopteron affine</i>

89	Rufous-crowned babbler	<i>Malacopteron magnum</i>
90	Blue Eared Barbet	<i>Megalaima australis</i>
91	Red-throated barbet	<i>Megalaima mystacophanos</i>
92	Buff-rumped woodpecker	<i>Meiglyptes tristis</i>
93	Blue Throated Bee Eater	<i>Merops viridis</i>
94	White-fronted falconet	<i>Microhierax latifrons</i>
95	Rufous woodpecker	<i>Micropternus brachyurus</i>
96	Bold-striped tit-babbler	<i>Mixornis bornensis</i>
97	Great Slaty Woodpecker	<i>Mulleripicus pulverulentus</i>
98	Blyth's hawk-eagle	<i>Nisaetus alboniger</i>
99	Red Bearded Bee Eater	<i>Nyctyornis amictus</i>
100	Dark-throated oriole	<i>Oriolus xanthonotus</i>
101	Ashy Tailorbird	<i>Orthotomus ruficeps</i>
102	Rufous-tailed tailorbird	<i>Orthotomus sericeus</i>
103	Eurasian Tree Sparrow	<i>Passer montanus</i>
104	Stork Billed Kingfisher	<i>Pelargopsis capensis</i>
105	Fiery Minivet	<i>Pericrocotus igneus</i>
106	Scarlet minivet	<i>Pericrocotus speciosus</i>
107	Oriental Honey Buzzard	<i>Pernis ptilorhynchus</i>
108	Chestnut-breasted Malkoha	<i>Phaenicophaeus curvirostris</i>
109	Rufous-winged philentoma	<i>Philentoma pyrhoptera</i>
110	Crimson-winged woodpecker	<i>Picus puniceus</i>
111	Borneo bristlhead	<i>Pityriasis gymnocephala</i>
112	Crested jayshrike	<i>Platylophus galericulatus</i>
113	Malayan black magpie	<i>Platysmurus leucopterus</i>
114	Chestnut-backed scmimitar-babbler	<i>Pomatorhinus montanus</i>
115	Yellow Bellied Prinia	<i>Prinia flaviventris</i>
116	Black-headed Bulbul	<i>Pycnonotus atriceps</i>
117	Asian Red Eyed Bulbul	<i>Pycnonotus brunneus</i>
118	Yellow-vented bulbul	<i>Pycnonotus goiavier</i>
119	Cream-vented bulbul	<i>Pycnonotus simplex</i>
120	Silver Rumped Spinetail	<i>Rhaphidura leucopygialis</i>
121	Raffles Malkhoha	<i>Rhinortha chlorophaea</i>
122	Malaysian Pied Fantail	<i>Rhipidura javanica</i>
123	Spotted fantail	<i>Rhipidura perlata</i>
124	Crested Serpent Eagle	<i>Spilornis cheela</i>
125	Changeable Hawk Eagle	<i>Spizaetus cirrhatus</i>
126	Rufous-fronted babbler	<i>Stachyridopsis rufifrons</i>
127	Chestnut-winged babbler	<i>Stachyris erythroptera</i>
