

## China Mega Mammals Tour

**Destination:** Jiangsu, Zhejiang, Sichuan & Yunnan, China **Season:** Winter

-  Expert guided trip across China in search of a huge range and diversity of mammals
-  Spotlighting throughout the trip – where allowed – for a range of nocturnal species.
-  Searching for no less than 12 endemic or near endemic species of primate including **Skywalker Hoolock Gibbon, Yunnan Snub-nosed Monkey & Francois Langur**
-  Special species such as **Pere David's Deer** & various **Flying Squirrels** targeted
-  Dedicated session to find the critically endangered **Yangtze Finless Porpoise**

### Dates:

Next group tour: 25<sup>th</sup> Nov – 16<sup>th</sup> Dec 2028

### Private / Tailored Tour information:

This is a very special tour which can only be run as the scheduled group tour.

The trip is planned for the northern hemisphere winter as the conditions are most pleasant and the wildlife at its most active.

This trip is run to focus on seeing a large range of mammal species including the critically endangered Yangtze Finless Porpoise and Pere David's Deer. This trip heads to the across this vast country and visits a huge range of habitats as we go looking for an incredible abundance and diversity of mammal species.

A core strength of our field expeditions in China is our ability to get to various locations which are difficult to access for foreigners and as a result we have a good track record in seeing rare primates such as Yunnan Snub-nosed Monkey, Western Black-crested Gibbon & Skywalker Hoolock Gibbon.

In addition to this Mega Mammal Tour we can also organise specialised tours for high plateau species (which we have deliberately left out of this trip), as well as specialist trips focusing on Giant Panda.

This 21 day trip is a genuine field expedition designed precisely for mammals including many species which are difficult or impossible to see without local expert help and logistics.

It can sometimes be possible to arrange shortened versions of this trip as private tailored tours if that is of interest to you, please enquire for more information on these possible options.

### Prices (2028 season):

Group Tour (21 nights)

£10,995 per person

\*single supplement £900

### Overview

**Day 1:** Shanghai - Yancheng

**Days 2-3:** Yancheng / Qingliangfeng

**Day 4:** Nanjing

**Days 5-6:** Chongqing

**Days 7-8:** Labahe NNR

**Day 9:** Ya'an / Jiuzhai

**Day 10:** Jiuzhai / Shangri-La

**Day 11:** Tacheng

**Days 12-14:** Gongshan / Baihualing

**Days 15-18:** Sudian / Hornbill Valley

**Day 19:** Baoshan / Wuliang

**Day 20:** Lincang / Kunming

**Day 21:** Chongzuo

**Day 22:** Nanning

# Tour Information

## Introduction

This ambitious three-week mammalwatching journey crosses China from the eastern coast to the forests, mountains and tropical valleys of the south-west, combining some of the country's most distinctive primates, marine mammals and other elusive species. Beginning in Shanghai, we travel quickly to Yancheng and Dafeng Milu, where the first targets include Pere David's Deer, Amur Hedgehog and Tolai Hare. From there the route turns south to Qingliangfeng National Nature Reserve for forest mammals such as Sika Deer, Reeve's Muntjac, Chinese Hare, Eastern Forest Hedgehog and Northern Hog Badger, before continuing to Nanjing for Chinese Water Deer, raccoon dog and the Yangtze finless porpoise.

The middle section of the tour moves into some of China's richest montane habitats. Around Chongqing and Jinpo Mountain we search for Francois Langur, Forest Musk Deer, Asiatic Black Bear, Masked Palm Civet and Mainland Leopard Cat. Labahe then provides a couple of days of intensive mammalwatching, with day and night sessions for Red and White Giant Flying Squirrel, Sambar, Tibetan Macaque, Malayan Porcupine, ferret-badgers, Maned Serow, Chinese Goral, Tufted Deer, Chinese Red Panda, Sichuan Takin, Eurasian Otter, Yellow-throated Marten and after leaving Labahe and stop for Golden Snub-nosed Monkey.

After reaching Chengdu, the expedition shifts to Yunnan's spectacular Hengduan and Gaoligong landscapes. Flights, trains and road transfers link Shangri-La, Tacheng, Gongshan, the Nujiang Gorge, Dulongjiang, Lushui and Sudian. Key targets here include Yunnan Snub-nosed Monkey, Himalayan Takin, Assamese Macaque, Shortridge's Langur, Gongshan Muntjac, Blanford's Fruit Bat, several flying squirrels, Phayre's Squirrel, Northern Palm Civet and Bengal Slow Loris. The programme also goes in search of the recently described Skywalker Hoolock Gibbon and enjoys specialist night searches around Hornbill Valley and nearby forests.

The final week focuses on Yunnan's western and central forests, to maximise chances for Himalayan Long-eared Flying Squirrel, Shan State Langur, Western Black Crested Gibbon, Indochinese Gray Langur and Chinese Giant Flying Squirrel before the tour concludes via Kunming and Nanning, but not before we visit Guangxi Chongzuo targets to see the critically endangered White-headed Langur.

This is the most comprehensive mammalwatching trip ever conducted as a group tour in China and it is the one of Royle Safaris series of cutting edge Mega Mammal Tours around the world. These amazing trips focus on trying to see a large range of mammals, from large mega fauna to small mammals. China is the first such trip where the sheer scale of the country and abundant mammal list means we have had to make some sacrifices (such as the Tibetan plateau and not dedicating specific time for the giant panda), as we already have specific trips focusing on those regions / species. This trip is designed with minimal overlap to those trips and so anyone who has already been with us to Qinghai or Sichuan would still very much enjoy this trip and see huge areas of China and many species not targeted on our existing group tours.

## Itinerary

### Day 1 Shanghai / Dafeng Milu *Arrival & Wildlife Watching*

#### Accommodation:

3/4\* Hotel

#### Food:

Dinner is the only meal included today and is served at the hotel or nearby restaurant.

#### Transportation:

Private vehicles & High-speed train.

You will have to arrive into Shanghai Pudong Airport before 7am in the morning (if you cannot arrive that early you will have to arrive the day before and overnight near the airport).

Once the group is all together we will have a private car transfer to Hongqiao Railway Station and catch the high-speed train to Yancheng (~2 hours) in the afternoon.

Depending on the time of our arrival we will either go to the accommodation and check in and have lunch or head straight in a private vehicle to Dafeng Milu (Pere David's Deer) National Nature Reserve. We aim to arriving here around 2pm. This allows us to see this amazing species (**Pere David's deer**) in the daylight, we will also explore some of the wetlands around here looking for species before having dinner back at the hotel.

If the local conditions allow we will do some spotlighting around here after dark also.

### Day 2 Hangzhou – Qingliangfeng NR *Travelling & Wildlife Watching*

#### Accommodation:

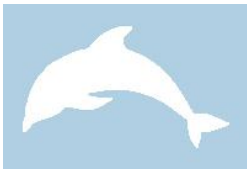

3/4\* Hotel

#### Food:

Breakfast will be served at the hotel with lunch en route and dinner at the hotel.

#### Transportation:

Private vehicles & High-speed train.

This morning we may have to visit Dafeng Milu again (it depends on the train schedule), before heading in a private vehicle to Yancheng Station. We will catch the high-speed train to Hangzhou East Station (3 hours).

After arriving in Hangzhou in the afternoon we will have a private vehicle transfer to the bat cave nearby to see what species we can find here; commonly seen cave dwelling species here include **Chinese rufous horseshoe bat**, **intermediate horseshoe bat**, **eastern bent-winged bat** and **Pratt's leaf-nosed bat**.

We will then go to the accommodation and have some dinner. Then afterwards we will drive to Lin'an Qingliangfeng National Nature Reserve to have some spotlighting, targeted species here would be **sika deer**, **black muntjac**, **Reeve's muntjac**, **Chinese hare**, **eastern forest hedgehog** and **northern hog badger**.

---

### Day 3 Qingliangfeng National Reserve

#### Wildlife Watching

#### Accommodation:

3/4\* Hotel

#### Food:

All of our meals will be served at the accommodation, local restaurants or with a packed lunch or field snacks.

#### Transportation:

Private vehicle.

Today you will have some morning, afternoon and night time searches looking for wildlife. The mammals here will be the same as listed on day 2 and there are some nice bird species here including Elliott's pheasants and silver pheasants which we will look for also.

---

### Day 4 Hangzhou – Zijin Mountain

#### Travelling & Wildlife Watching

#### Accommodation:

3/4\* Hotel

#### Food:

Breakfast and dinner will be served at the hotel with lunch en route.

#### Transportation:

Private vehicles & High-speed Train.

This morning at dawn we will have some more wildlife watching before setting off in a private vehicle back to Hangzhou East station (3 hours). We will catch the high-speed train to Nanjing South (1.5 hours).

Once we arrive in Nanjing we will have a private vehicle transfer to Zijin Mountain (30 mins), hopefully arriving around 3pm.

Zijin Mountain is a good wildlife watching location and we will spend the late afternoon hiking around and then have some spotlighting after dark. Are target species are **Chinese water deer**, **Amur hedgehog**, **common raccoon dog**, **Reeve's muntjac** as well as any rodent and bat species we come across.

---

### Day 5 Nanjing - Chongqing

#### Travelling & Wildlife Watching

#### Accommodation:

3/4\* Hotel

#### Food:

Breakfast and dinner will be served at the hotel with lunch en route.

#### Transportation:

Private Vehicles & Domestic Flight.

This morning will be a little more relaxed as we will go to the waterfront and visit the Yangtze River Finless Porpoise Reserve. This is the best place (if not the only place) to observe the critically endangered **Yangtze finless porpoise** in the world and the mornings are the best time to see this species.

We hope to see this species relatively quickly as we will visit caves near Nanjing to look for bats (hoping to see some species such as **greater horseshoe bat**, **greater bent-winged bat**, **Rickett's big-footed bat** and **Asian particoloured bat**).

After this you will be taken to the airport in Nanjing to fly to Chongqing in the evening, with a quick transfer to the nearby hotel on arrival.

---

### Day 6 Chongqing (Jinfo Mountain)

#### Travelling & Wildlife Watching

#### Accommodation:

3/4\* Hotel

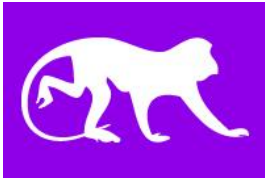

#### Food:

Breakfast and dinner will be served at the hotels with lunch at a local restaurant.

#### Transportation:

Private Vehicle.

Today we will leave the city and drive in our private vehicle to Jinfo Mountain National Nature Reserve (2.5 hours).

Once here we will spend the day looking for the first endemic (or near endemic) primate of the trip. The **Francois' langur**. A nice bird which can be seen here is the golden pheasant, but other than the langur and pheasant there is not a lot of diurnal targets, however we hope to see **Swinhoe's striped squirrel** and then after dinner we will have some spotlighting.

Possible species here would include **Asiatic black bear** (if there are any late to hibernate), **forest musk deer**, **masked palm civet**, **mainland leopard cat** and possibly **Jinfo field mouse**.

---

## Day 7      **Jinfo Mountain / Labahe NNR**      *Travelling & Wildlife Watching*

### Accommodation:

3/4\* Hotel

### Food:

Breakfast and dinner will be served at the hotels with lunch at a local restaurant.

### Transportation:

Private Vehicle.

If we failed in seeing **Francois' langur** yesterday we will have a little time this morning to have one more look around Jinfo Mountain, before leaving and driving to Labahe National Nature Reserve (~6 hours).

Once we arrive here, we will check into the hotel and have some rest, before heading into the reserve after dark to look for wildlife around the Laohu River.

Labahe NNR is one Sichuan's principle wildlife watching destinations and is very rich in mammals. There are both diurnal and nocturnal targets here and we will spend tonight looking for a wide range of species, including **forest musk deer**, **northern hog badger**, **Tibetan macaque**, **masked palm civet**, **red-and-white giant flying squirrel**, **sambar**, **Malayan porcupine**, **small-toothed ferret-badger**, **mainland leopard cat**, **Chinese serow**, **Chinese goral**, **tufted deer** and **Reeve's muntjac**.

There are also some nice rarities here which we will try and find, including **Central Asian red deer**, **Chindwan flying giant squirrel**, and a range of smaller rodents such as **Chevrier's field mouse**, **Edward's long-tailed giant rat**, **Confucius niviventer**.

---

## Day 8      **Labahe NNR**      *Wildlife Watching*

### Accommodation:

3/4\* Hotel

### Food:

All of our meals will be served at the hotel or with a packed lunch or field snacks.

### Transportation:

Private Vehicle.

Today is a full day around Labahe NNR, we will spend the morning, afternoon and night (after dinner) looking for mammals.

During the day our attention will switch from the targeted species listed on day 7 to the main target here and once of the most adorable looking mammal species in the world, the beautiful and iconic **Chinese red panda**. Other diurnal species here include **moupin pika** and if the caves here are accessible there should be some bat species here. In the past we have found **Sichuan myotis**, **little Japanese horseshoe bat**, **Japanese greater horseshoe bat** and **rufous tube-nosed bat**. In winter there is a good chance of some of these species hibernating here, but they are unpredictable.

---

## Day 9      **Labahe / Ya'an / Jiuzhai**      *Wildlife Watching & Travelling*

### Accommodation:

3/4 Hotel

### Food:

Breakfast and lunch will be served in Labahe with dinner in Jiuzhai.

### Transportation:

Private Vehicles & High-speed Train.

This morning will be a final morning looking for wildlife around Labahe and then after lunch we will depart and drive to Ya'an station (~1.5 hours) to catch a high speed train to Chengdu where we will transfer to our next train to take us to Huanglong-Jiuzhai station (~4 hours).

We should arrive in the evening and have dinner at the accommodation. We are here to see one of the most iconic of all Chinese mammals, the golden snub-nosed monkey.

---

## Day 10      **Jiuzhai / Chengdu / Shangri-La**      *Wildlife Watching & Travelling*

### Accommodation:

3/4 Hotel.

### Food:

Breakfast and lunch in Jiuzhai with dinner en-route.

### Transportation:

Private Vehicle & Domestic Flight.

This morning we will leave the hotel early and travel to Baihe National Nature Reserve (Jinhou Valley) to search for the amazing **golden snub-nosed monkey**. After here we will have some lunch before driving back to Chengdu (~5 hours) and catching our evening flight to Shangri-La in the province of Yunnan and the province we will embark on a whirlwind mammalwatching adventure!

---

## Day 11      **Tacheng National Park**      *Travelling & Wildlife Watching*

### Accommodation:

3/4 Hotel.

### Food:

Breakfast will be had in Shangri-La and lunch and dinner in Tacheng.

### Transportation:

Private Vehicle & Walking.

This morning we will leave the hotel and drive in a private vehicle to Tacheng Yunnan Snub-nosed Monkey National Park (2 hours) to spend some time with the second species of snub-nosed monkey, the **Yunnan snub-nosed monkey**. Our third species of endemic or near-endemic primate of the trip so far.

We will spend a good amount of time with this special primate before returning to the hotel for the night. Unfortunately we will not be able to include spotlighting in some locations on this trip due to local restrictions or no access to habitat after dark. So places such as Tacheng and Gongshan County we cannot do anything after dark, but in every place where we can, we will do some spotlighting.

---

## Day 12      **Gongshan County**      *Travelling & Wildlife Watching*

### Accommodation:

3/4 Hotel.

### Food:

Breakfast in Tacheng with lunch and dinner in Gongshan County.

### Transportation:

Private Vehicle & Walking.

This morning we will leave the accommodation and drive to Gongshan County (~6.5 hours) and on arrival here in the afternoon we will look for **Himalayan (or Mishmi) takin** in the Nujang River gorge. Other species we can try and find here include **Assamese macaque**, **Shortridge's langur** (although we will have better chances for this species in other places) and the very rare **Gongshan muntjac**.

After scanning for this very range restricted species we will have dinner and the night back at the hotel.

---

## Day 13      **Gaoligong National Park**      *Travelling & Wildlife Watching*

### Accommodation:

3/4 Hotel.

### Food:

All meals will be served at the accommodation in between wildlife watching activities.

### Transportation:

Private Vehicle & Walking.

This morning we will visit Dulongjiang Township in the morning and have another look for **Himalayan takin**. And then in the afternoon we will search for **Shortridge's langur** along the China-Myanmar border and other wildlife we can find here.

Tonight we will be able to do some spotlighting and hope for species such as **Gongshan muntjac**, **particoloured flying squirrel**, **Blandford's fruit bat** and other rodents and bat species.

---

## Day 14      **Gaoligong NP / Baihauling**      *Travelling & Wildlife Watching*

### Accommodation:

3/4 Hotel.

### Food:

All of our meals will be served at the hotels in local restaurants whilst travelling.

### Transportation:

Private Vehicle & Walking.

This morning will be our final opportunity for the near-endemic **Shortridge's langur**, before we leave Gaoligong National Park and drive to Bailauling (8-9 hours).

In the evening we can try for **Himalayan long-eared flying squirrel** which can sometimes be seen around Baihauling village.

---

## Day 15 Lushi / Sudian

## Travelling & Wildlife Watching

### Accommodation:

3/4 Hotel.

### Food:

All of our meals will be served at the hotels in local restaurants whilst travelling.

### Transportation:

Private Vehicle & Walking

This morning our journey continues as we travel to Sudian Township (5-6 hours) which is the home of the newly described **Skywalker hoolock gibbon** however as gibbons are nearly always only found in the early morning when they wake up and call we will likely miss this species today and instead we will have some spotlighting here to look for species such as **Bengal slow loris**, **Yunnan flying squirrel**, **large Indian civet**, **particoloured flying squirrel**, **hairy-footed squirrel** and **northern palm civet** as well as any other rodents and bat species we come across in this very rich part of the world.

---

## Day 16 Sudian / Hornbill Valley

## Wildlife Watching & Travelling

### Accommodation:

3/4 Hotel.

### Food:

All of our meals will be served at the hotels in local restaurants whilst travelling.

### Transportation:

Private Vehicle & Walking.

This morning we will spend time looking for the latest rare primate on the trip, the recently described **Skywalker hoolock gibbon** other diurnal species we can see here include **Phayre's squirrel** and **black giant squirrel**.

Then after lunch we will drive to Hornbill Valley (5-6 hours) which is predominately a birding destination but it is becoming quite well known for mammalwatching too.

After checking into the hotel and having some dinner we will head out for a night walk to spot the nocturnal animals of the area, which could include **Bengal slow loris**, **Yunnan flying squirrels**, **particoloured flying squirrel** and a range of other rodents and bats.

---

## Day 17 Hornbill Valley

## Wildlife Watching

### Accommodation:

3/4 Hotel.

### Food:

All of our meals will be served at the hotels in local restaurants whilst travelling.

### Transportation:

Private Vehicles & Walking.

Today we will spend a day around Hornbill Valley. This morning we will visit one of the birding hides, around here we would hope to see some diurnal mammals including a good diversity of squirrel species (**Anderson's squirrel**, **Asian red-cheeked squirrel**, **Himalayan striped squirrel** and **Phayre's squirrel**) and **northern treeshrew**.

In the afternoon we can revisit some of the hides and forests of Hornbill Valley or if we have seen all of our target species here we can have a rest this afternoon.

Then after dinner we will come back to the forests for some spotlighting, where we would hope to find some of the flying squirrels known from here such as **Yunnan giant flying squirrel**, **Particolored flying squirrel**, and **hairy-footed flying squirrel** as well as **slow loris** and **civets**.

---

## Day 18 Hornbill Valley / Mangshi / Baoshan Travelling & Wildlife Watching

### Accommodation:

3/4 Hotel.

### Food:

All of our meals will be served at the hotels in local restaurants whilst travelling.

### Transportation:

Private Vehicles & Walking.

This morning we leave Hornbill Valley and will drive to Mangshi (3.5 hours) where we hope to find yet another rare near-endemic primate species, the **Shan State langur**, there is a chance for another species of squirrel today as

we may also be able to see **black giant squirrels** whilst looking for the langurs. Then from here we will continue to our destination tonight in Baoshan (~2 hours).

---

## Day 19      **Baoshan / Wuliang Mountain**      *Travelling & Wildlife Watching*

### Accommodation:

3/4 Hotel.

### Food:

All of our meals will be served at the hotels in local restaurants whilst travelling.

### Transportation:

Private Vehicle & Walking.

This morning we will leave Baoshan and be transferred in a private vehicle to Wuliang Mountain (~4.5 hours), and on arrival begin searching for **western black-crested gibbon** and **Indochinese gray langurs** in the afternoon. As with all gibbons we will have more chance for this species tomorrow morning but we hope to have views of the **Indochinese gray langurs** this afternoon.

---

## Day 20      **Wuliang Mountain / Kunming**      *Wildlife Watching & Travelling*

### Accommodation:

3/4 Hotel.

### Food:

All of our meals will be served at the hotels in local restaurants whilst travelling.

### Transportation:

Private Vehicles, Walking & Domestic Flight.

This morning we will rise early to catch the **western black-crested gibbons** as they call and are easier to find, we will have the morning to look for this species and also **Indochinese gray langurs**, before we pack up and leave for Lincang Airport (2 hours) to catch a flight to the city of Kunming. On arrival here we will be transferred to a nearby hotel for the night.

---

## Day 21      **Kunming / Nanning / Chongzuo**      *Travelling & Wildlife Watching*

### Accommodation:

3/4 Hotel.

### Food:

All of our meals will be served at the hotels in local restaurants whilst travelling.

### Transportation:

Private Vehicles, Domestic Flight & Walking.

This morning we will be transferred to the airport to catch a flight to Nanning (1.5 hours) and on arrival we will be driven in a private vehicle to Banli White-headed Langur Nature Reserve in Chongzuo (2 hours) to search for the final species of our trip and the critically endangered **white-headed langurs**. After spending some time with this species we will return to downtown Chongzuo for the final night of the trip.

---

## Day 22      **Home**      *Departure*

### Accommodation:

NA

### Food:

Breakfast will be served at the hotel and is the only meal included today.

### Transportation:

Private Vehicle.

Today everyone will be transferred in a private vehicle to Nanning Wuxu Airport to catch their return flights home. Please note that it will take around 2 hours to make this journey and so please book flights for the mid afternoon or later to make sure there is enough time to get there and check in today.

### **Your tour and all Royle Safaris services end upon transfer to the airport**

Please note that the itinerary stated above is correct as our planned intentions for the tour. However adverse weather conditions and other local considerations can necessitate some modifications of the itinerary during the course of the tour; any changes will be made to make the best of the time, weather conditions and other constraints forced upon us and all changes will be made in conjunction with our terms and conditions.

### **Tour Inclusions**

Absolutely everything mentioned in the above itinerary is included (except where it is expressly mentioned as an optional extra).

- All accommodation as mentioned above or of a similar standard as mentioned.
- All meals as mentioned in the itinerary; please note that some lunches and dinners may not be included when staying in cities in this itinerary.
- Bottled mineral or purified (boiled) water will be provided in vehicles and at the campsites.
- Private vehicles for all transfers.
- Local (Chinese speaking) drivers for all transfers.
- English speaking local mammalwatching guides with years of experience in working in the areas we are travelling.
- Royle Safaris zoologist escort where available (guaranteed on the first (2028) departure).
- All fuel, tolls, taxes and other expenses relating to driving.
- All scheduled wildlife watching activities including spotlighting and other field activities
- Entrance fees and permits to all locations for wildlife watching mentioned.
- Field guides will be available for reference whilst on the trip.
- Domestic flights as per itinerary.
- High-speed train tickets as per itinerary.

### **Tour Exclusions**

Nearly everything you will need is included in the price you have already paid for the tour. However there are some things not included.

- International flights to and from the tour start and end points.
- Travel insurance including any fees that result from emergency medical or evacuation needs.
- Visa fees for entering the country(s).
- Vaccinations and any medication are not included.
- Any food other than the meals provided and mentioned in the above itinerary; please note that some lunches and dinners may not be included in this itinerary
- Some meals will include a drink (such as juice, tea & coffee at breakfast) but most soft drinks and alcohol are an extra expense.
- Any items of a personal nature are not included, such as souvenirs, medication, toiletries, laundry and phone calls.
- Tips are also not included. There is no hard and fast rule for tipping in China. However we would appreciate it, if you have been happy with the service of the guides then please tip a little something at the end of the complete excursion. For local guides we hire for individual activities please tip individually and also if there are tip boxes in restaurants, camps, lodges and hotels then these are generally used for tipping all of the staff.
- Any departure taxes which may be due when leaving are not included (but may be included in the cost of your flights).

**Please refer to our Terms & Conditions (<http://www.royle-safaris.co.uk/terms-conditions/>) before booking any trips – email or paper copies of Terms & Conditions can be provided if needed**

*Whilst it is not possible to see every target on any single trip, we will target the following species of mammals:*

**Lagomorphs**

Tolai Hare, Chinese Hare, Yunnan Hare, Moupin Pika, Tsing-ling Pika, Gansu Pika, Forrest's Pika,

**Rodents**

Swinhoe's Striped Squirrel, Red-and-white Giant Flying Squirrel, Jinfo Field Mouse, Malayan Porcupine, Grey-headed Flying Squirrel, Pere David's Rock Squirrel, Particoloured Flying Squirrel, Pharye's Squirrel, Yunnan Flying Squirrel, Chindwan Giant Flying Squirrel, Hairy-footed Flying Squirrel, Anderson's Squirrel, Asian Red-cheeked Squirrel, Himalayan Striped Squirrel, Himalayan Long-eared Flying Squirrel, Chinese Giant Flying Squirrel, Black Giant Squirrel, Perny's Long-nosed Squirrel, Red-hipped Squirrel, Pallas's Squirrel, Chinese Birch Mouse, Chinese Jumping Mouse, Chinese Bamboo Rat, Hoary Bamboo Rat, Indomalayan Pencil-tailed Tree Mouse, Indomalayan Long-tailed Climbing Mouse, Striped Field Mouse, Chevrier's Field Mouse, South China Field Mouse, Korean Field Mouse, House Mouse, Indochinese Shrew-like Mouse, Eurasian Harvest Mouse, Greater Bandicoot Rat, Bower's White-toothed Rat, Sichuan Niviventer, South China Niviventer, Confucian Niviventer, Brown Rat, Oriental House Rat, Indochinese Forest Rat, White-footed Indochinese Rat, Edward's Long-tailed Giant Rat, Striped Dwarf Hamster, Greater Long-tailed Hamster, Yunnan Red-backed Vole, Reed Vole, Asiatic Brush-tailed Porcupine, Red Giant Flying Squirrel, Indian Giant Flying Squirrel, Spotted Giant Flying Squirrel, Complex-toothed Flying Squirrel, Forrest's Rock Squirrel,

**Insectivores**

Amur Hedgehog, Eastern Forest Hedgehog, Shrew Gymnure, Short-tailed Gymnure,

**Bats**

Least Horseshoe Bat, Chinese Rufous Horseshoe Bat, Pratt's Leaf-nosed Bat, Greater Japanese Horseshoe Bat, Shortridge's Horseshoe Bat, Intermediate Horseshoe Bat, Pearson's Horseshoe Bat, Asian Long-fingered Bat, Chinese Noctule, Common Pipistrelle, Japanese Pipistrelle, Asian Particoloured Bat, Alashanian Pipistrelle, Chinese Pipistrelle, Oriental Serotine, Rufous-tube-nosed Bat, Sichuan Myotis, Chinese Water Myotis, Rickett's Big-footed Myotis, Blandford's Fruit Bat, Greater Short-nosed Fruit Bat, Leschenault's Rousette

**Treeshrews**

Northern Treeshrew

**Pangolins**

Chinese Pangolin

**Pigs**

Eurasian Wild Pig

**Deer**

Pere David's Deer, Sika Deer, Reeve's Muntjac, Chinese Water Deer, Forest Musk Deer, Sambar, Tufted Deer, Central Asian Red Deer, Gongshan Muntjac, Black Musk Deer, Black Muntjac, Northern Red Muntjac,

**Goats & Sheep**

Chinese Serow, Chinese Goral, Himalayan Takin, Sichuan Takin,

**Cats**

Mainland Leopard Cat, Asiatic Golden Cat

**Canids**

Common Raccoon Dog,

**Red Pandas**

Chinese Red Panda

**Bears**

Asiatic Black Bear (if not hibernating),

**Mustelids**

Northern Hog Badger, Small-toothed Ferret Badger, Yellow-throated Marten, Asian Badger, Eurasian Otter, Yellow-bellied Weasel, Siberian Weasel, Back-striped Weasel

**Civets**

Masked Palm Civet, Northern Palm Civet, Small Indian Civet, Large Indian Civet,

**Cetaceans**

Yangtze Finless Porpoise

**Primates**

Bengal Slow Loris, Francois Langur, Tibetan Macaque, Golden Snub-nosed Monkey, Yunnan Snub-nosed Monkey, Assamese Macaque, Shortridge's Langur, Skywalker Hoolock Gibbon, Shan State Langur, Western Black-crested Gibbon, Indochinese Gray Langur, White-headed Langur, Rhesus Macaque, Stump-tailed Macaque
